WASHINGTON, Jan. 4 .- In his invo cation upon the reconvening of the House today Chaplain Conden feelingly referred to the death recently of Representative Davey of Louisiana and to the earthquake in Italy.

Almost immediately upon the conclusion of the prayer, Mr. Latta, one of the president's secretaries, appeared with a nessage from the president urging aproyal of his acts in extending relief and also an additional appropriation of \$500,000 for further relief.

S500,000 for further relief.

The members of the committee on appropriations at once were called to the speaker's desk for a conference with the idea in view of obviating the reference of the matter to committee. Thereupon Mr. Bingham of Pennsylvania secured unanimous consent for the immediate consideration of the resolution for relief in accordance with the president's message, and it was adopted amidst great applause. The resolution follows:

Text of Special Message.

To the House of Representatives:

I have received the resolution of the house of representatives of December 17, 1998, running as follows:

"Whereas there was contained in the sundry civil appropriation bull which passed congress at its last session and became a law, a provision in reference to the employment of the secret service in the treasury department; and

ame a law, a provision in renovation the employment of the secret service at the treasury department; and "Whereas in the last annual message of a president of the United States to the co-bouses of congress it was stated in ference to that provision. It is not so much to say that this amendment as been of benefit only, and could be of conefit only, to the criminal classes, and it was further stated. The chief argument in favor of the provision was that the congression did not themselves wish to be investigated by secret service men, and it was further stated. But if this is not considered desirable a special exception could be made in the law, proffibiling the use of the secret service force in investigating members of congress. It would be far better to do this than to do what actually was done, and strive to prevent or at least to hamper effective action against criminass by the executive branch of the government; and Interpretation Given.

"Whereas the plain meaning of the above words is that the majority of the congressmen were in fear of being investigated by secret service men and that congress as a whole was actuated by that motive in enacting the provision in question; and "Whereas your committee appointed to consider these statements of the president and to report to the house cannot find in the hearings before committees nor in the records of the house or senate, any justification of this impeaniment of the honor and integrity of the congress; and

ment of the honor and assession congress; and
"Whereas your committee would prefer in order to make an intelligent and
comprehensive report, just to the president as well gat to the congress, to insident as well as to the congress, to insident the information which the president
may have to communicate. Now, there-

findy have to communicate. Now, therefore, he if.

"Resolved, That the president be requested to transmit to the house any evidence upon which he based his statements that the 'chief argument in favor of the provision was that the congressmen did not themselves wish to be investigated by secret service men,' and also to transmit to the house any evidence cuperting any member of the house of representatives of the Sixtleth congress with corrupt artien in his official capacity, and to inform the house whether he has multituded procedings for the punishment of any such individual by the courts or has reported any such sileged delineaches to the house of representatives."

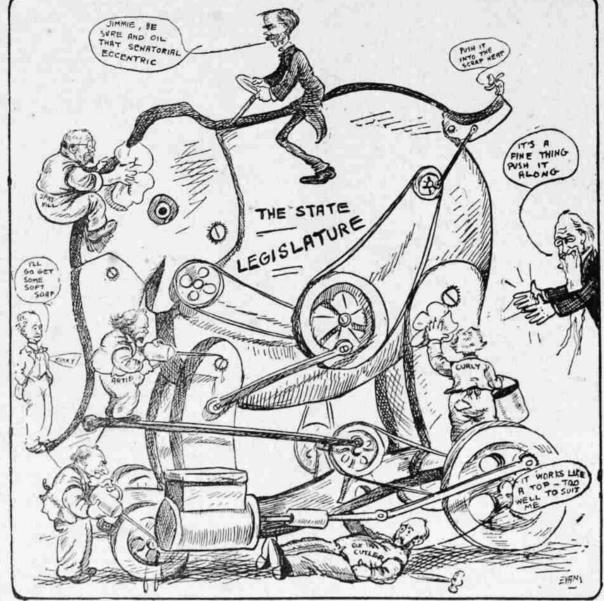

Denies Making Changes.

Denies Making Changes.

I am wholly at a loss to understand the concluding portion of the resolution. I have made no charges of corruption against congress nor against any member of the present house. If I had proof of such corruption affecting any member of the house in any matter as to which the federal government has jurisdiction action would at once be brought, as was done in the cases of Senators Mitchell and Barton, and Representatives Willlamson. Herrmann and Driggs, at different times since I have been president. This would simply be doing my duty in the execution and enforcement of the laws without respect to persons. But I do not regard it as within the province
